23.40	STOP	AT	LIBRARY (START)	

Ride designed by Bob and Ellie Gregg Date: 5/8/94
Date Last Ridden: June, 2004

LAKE GENEVA RIDE CONTINUED

NOTE PAGE

(THIS PAGE IS NOT MEANT TO BE PART OF THE CUE SHEET.)

Include on this page any info which may be useful in the future, i.e., route to remote start rides, parking, restaurants, rest stops, points of interest, changes which the leader (and the riders) might like to see on the next ride, road conditions, attendance, comments from the riders after the event which would provide insight towards ride improvement (including possibly even scrapping the entire ride!) The purpose of this is, of course, to improve the ride but also provides info for future ride leaders (who may never have taken this ride themselves) and also provide data required for creating articles for the newsletter.

1. This ride is also a great one for the "leaves changing colors" time of year.
2. Parking in Lake Geneva: Main St. (Hwy 50) is the main east/west street going thru Lake Geneva. The on street parking in the heart of town is metered but go just a block north of it to Geneva St. and west of Cook St. to unmetered all day parking. The start/finish point is the library which is on Main St. near Cook st.
3. Places to eat: In Lake Geneva- Scuttlebutts (drinks/medium menu) and Popeyes (drinks/full menu) on the waterfront street.
In Fontana: Chucks (light meals and drinks) - sit on the docks if you want- and drink soft drinks and stick your feet in the water. NOTE: On Sunday, only breakfast is served until noon.
On Lake Como: Mars "Resort" (just a restaurant and bar) drinks and light menu.

Ride leader - Please add your information, changes, corrections to this sheet and return it to the rides chairperson. If this also involves changes to the cue sheet, include a marked up copy of it also.
